

AS91356 - Develop a conceptual design for an outcome

Domain: Technology / Generic 2.3

Credits: 6 (Internal)

NZQA: <http://www.nzqa.govt.nz/nqfdocs/ncea-resource/achievements/2015/as91356.pdf>

Achieved	Evidence	
Establish potential conceptual designs through generating and evaluating design ideas that are informed by research, including the analysis of existing outcomes		
Use evidence from research and functional modelling, including feedback from stakeholders, to evaluate conceptual designs		
Select and communicate the final conceptual design for an outcome		
Explain the outcome's potential fitness for purpose.		
Merit		
Ongoing exploration and evaluation of design ideas to determine their suitability for inclusion in conceptual designs		
Use evidence from ongoing research and functional modelling, including feedback from stakeholders, to evaluate conceptual designs		
Excellence		
Synthesise evidence from ongoing research and functional modelling, including feedback from stakeholders, to evaluate conceptual designs		
Substantiate the outcome's potential fitness for purpose
